FRIDAY, APRIL 12, 1776.

The Congress met according to adjournment.

The committee to enquire into the cost of sundry merchandizes deemed useful to the service of this Province, as per invoice exhibited by Mr. John Wright Stanly, and to agree with him for the same, reported as follows, viz.

Your committee have examined the invoices of sundry goods imported by John Wright Stanly, the cost of which appears to amount to the sum of 3162 pieces of eight (pieces 8s8) and two rials, charged at St. Eustatia, on which an advance of 75 per cent. for risk and charges appear reasonable, as they were bought in barter; also sundry other goods, by invoice produced, amounting to 3934 pieces of eight (pieces 8s8) four rials, and four stivers, bought with ready money, on which an advance of 87 and a half per cent. for risk and charges, and 20 per cent. for the risk, trouble and commission, Mr. Stanly had in the adventure.

Your committee are further of opinion the 500 lbs. of gunpowder offered by Mr. Stanly at 8s. per pound, is at this time a reasonable price; which several sums amount in the whole to 4848l. 1s. 1d. three farthings. Proclamation money, which your committee are of opinion may be allowed and paid to Mr. Stanly for the said goods, on account and for the use of the public, on delivery of said goods at Newbern in good order, to such person or persons as the Congress shall appoint to receive them. Humbly submitted to the House.

The Congress taking the same into consideration, and the said report being read, concurred therewith.

The Congress having agreed with Mr. John Wright Stanly, on account of the public, for sundry goods and merchandizes, as per invoice exhibited, *Resolved*, That the Treasurers, or either of them, pay to John Wright Stanly the sum of 4848l. 1s. 1d. three farthings. Proclamation money, for sundry goods and merchandizes purchased of him on account and for the use of this Province, he first producing a receipt from John Green and David Barron that all and every article contained in said invoice are *bona fide* and actually delivered into their possession, in good and merchantable order, and that the Treasurers be allowed in their accounts with the public.

On motion, *Resolved*. That Mr. John Green and Mr. David Barron, of Newbern, be requested to receive, and take into their possession, from Mr. John Wright Stanly, sundry goods and merchandizes, as per invoice exhibited, amounting to 4848l. 1s. 1d. three farthings, at the risk and on account of the public, till further orders.

Mr. Harnett, Chairman from the committee to take into consideration the petition of Joseph Wood and co-partners, praying an order to dispose of the effects of his Excellency Josiah Martin, Esq. &c. reported as follows, to wit:

Your committee having enquired into the several allegations set forth in the said petition, do report as follows: That the said Joseph Wood and

partners, with permission of the committee of the City and Liberties of Philadelphia, did on the 5th day of January last past, load on board the sloop Joseph, William Raddon master, sundry goods and merchandize, on their own account, to the value of 670l. 3s. 7d. on the account of William Todd, 190l. of Joseph Wood, jun. 10l. of William Raddon, 9l. 18s. prime cost in Philadelphia, all which were consigned to the said Joseph Wood, jun. and bound to Georgia; that in his passage the said sloop and cargo were taken by an armed vessel called the General Gage, George Sybels master, and carried into Cape Fear, where Josiah Martin, Esq. late Governor of this Province, bore the chief command; and the officers under command of the said Josiah Martin did violently seize the said sloop and cargo, and apply them to the use of the enemies of America, whereby the said Joseph and partners lost 1500l. current money of Pennsylvania, over and above the profits they might reasonably have made.

The House taking the same into consideration, concurred therewith.

Resolved, That the inlisting of the Continental or Provincial regular soldiers into the service of any armed vessel or privateer, is highly improper, and greatly injurious to the service; and that all those who have presumed to enlist any soldiers, knowing they belong to such service, have acted in a manner contrary to the interest of this Colony, and have been guilty of a breach of the Continental Rules and Regulations, and are hereby ordered to return the soldiers so enlisted to the several corps to which they belong; and that if the officer or officers belonging to such armed vessels or privateers do not immediately restore the soldiers so enlisted by them to the officer or officers of their respective corps, that then, and in that case, they will be considered as unworthy of any command under this Congress, and deemed enemies to American liberty. Provided, that nothing herein contained shall be construed to extend to such soldiers as had served six months from the time of their enlistment.

The select committee to take into consideration the usurpations and violences attempted and committed by the King and Parliament of Britain against America, and the further measures to be taken for frustrating the same, and for the better defence of this Province, reported as follows, to wit:

It appears to your committee, that pursuant to the plan concerted by the British Ministry for subjugating America, the King and Parliament of Great Britain have usurped a power over the persons and properties of the people unlimited and uncontrouled; and disregarding their humble petitions for peace, liberty and safety, have made divers legislative acts, denouncing war, famine, and every species of calamity, against the Continent in general. The British fleets and armies have been, and still are daily employed in destroying the people, and committing the most horrid devastations on the country. That Governors in different Colonies have declared protection to slaves, who should imbrue their hands in the blood of their masters. That the ships belonging to America are declared prizes of war, and many of them have been violently seized and confiscated. In consequence of all which multitudes of the people have been destroyed, or from easy circumstances reduced to the most lamentable distress.

And whereas the moderation hitherto manifested by the United Colonies, and their sincere desire to be reconciled to the mother country on constitu-

tional principles, have procured no mitigation of the aforesaid wrongs and usurpations, and no hopes remain of obtaining redress by those means alone which have been hitherto tried, your committee are of opinion that the House should enter into the following resolve, to wit:

Resolved, That the delegates for this Colony in the Continental Congress be impowered to concur with the delegates of the other Colonies in declaring Independency, and forming foreign alliances, reserving to this Colony the sole and exclusive right of forming a Constitution and laws for this Colony, and of appointing delegates from time to time, (under the direction of a general representation thereof,) to meet the delegates of the other Colonies, for such purposes as shall be hereafter pointed out.

The Congress taking the same into consideration, unanimously concurred therewith.

The order of the day being read for taking into consideration the nomination and appointment of military officers, *Ordered*, That the same be deferred till to-morrow.

Mr. Needham Bryan, one of the members of Johnston county, Mr. Joseph Williams, Mr. Joseph Winston and Mr. Charles Gordon, three of the members of Surry county, appeared and took their seats.

The Congress adjourned 'till to-morrow morning, nine o'clock.

—o—o—o—

SATURDAY, APRIL 13, 1776.

The Congress met according to adjournment.

Ordered, That Col. John Hogan, of the regiment of militia for the county of Orange, have leave to resign his command.

Resolved, That if any commissioner or commissioners appointed by the King, according to act of Parliament, to come over from Great Britain to America, shall arrive in this Province, under any pretext whatever, unless such commissioner or commissioners shall produce a commission to treat with the Continental Congress, that the person or persons of such commissioner or commissioners shall be required to return immediately on board the vessel in which he or they arrive; and in case of refusal, or if such commissioner or commissioners shall at any time after be found on shore within this Province, the person or persons of such commissioners be seized, and immediately sent to the said Congress.

Resolved, That the thanks of this Congress be given to Col. Richard Caswell, and the brave officers and soldiers under his command, for the very essential service by them rendered this country at the battle of Moore's Creek.

On motion, *Resolved*, The Congress resolve itself into a committee of the whole, to take under consideration the augmentation of the troops already voted to be raised by this Province.

The Congress resolved itself into a committee of the whole accordingly, and chose John Campbell, Esq. Chairman; and after some time spent therein, came to a resolution thereon. Then, on motion, Mr. President resumed the Chair, and Mr. Chairman reported as follows, to wit:

Resolved, That the troops voted by the Congress, as necessary to the defence of this Province, shall be divided into six battalions (including the two battalions voted by the last Congress) each battalion to be commanded by one Colonel, one Lieutenant Colonel, and one Major; and to con-

sist of eight companies, each company to consist of one Captain, two Lieutenants, one Ensign, four Serjeants, four Corporals, two Drummers, one Fifer, and 76 rank and file; also one Quarter Master, one Commissary of Stores, one Surgeon, one Adjutant, one Quarter Master Serjeant, one Drum Major, one Serjeant Major, and one Waggon Master for each battalion.

The Congress taking the same into consideration, concurred therewith.

The committee appointed to take into consideration the petition of William Alston, referred by the Congress, reported as follows, to wit:

Your committee having enquired into the several allegations set forth in the said petition, together with the defence of the defendant, and every pregnant circumstance relative thereto, do report as follows: They find that about August, 1775, the said William Alston, in behalf of the orphans of Solomon Alston, deceased, in the said petition mentioned, obtained under the signature of Josiah Martin, Esq. Governor, &c. of North Carolina, a writ of *Ne Exeat Regno*, against John Henderson (who intermarried with Sarah, widow of the said Solomon) for mal practices in his administration of the said deceased's estate, which said writ of *Ne Exeat Regno* your committee find to be unduly and ineffectually executed; and further they find that the sum of 1620l. Proc. money, bequeathed to two of the orphans, to wit: Lemuel and Henry, in the said petition mentioned, hath been improperly applied by the said Henderson, or at least not according to the express devise of the said Solomon. Your committee therefore are of opinion (exploding altogether the proceedings on the writ of *Ne Exeat Regno*) that the said Henderson be held to sufficient security for his not removing any part of the said deceased's estate out of the Province, or in default thereof, that the whole of said estate be put and placed in the hands and possession of the other two executors of the said Solomon, to wit: Joseph John Williams and William Alston, for the use and emolument of the orphans, to wit: Charity, Lemuel and Henry. Your committee further conceive that the intention of the testator, respecting the tuition of his children, is in some measure defeated by the intermarriage of his widow with the said Henderson; we therefore submit to the consideration of the House, whether it may not be expedient to place the said orphans under the care of some other person, so that their education and bringing up may be suitable to their rank and fortune.

The House taking the same into consideration, concurred therewith.

The returning officer having certified that Mr. Eaton Haynes was duly elected one of the delegates for the county of Northampton, in the room and stead of Mr. Samuel Lockhart, whose seat was vacated by his having a command in the Minute Service, appeared and took his seat.

Mr. Ambrose Ramsay, of Chatham, one of the delegates, Mr. Samuel Spencer, for Anson county, and Mr. John Childs, of the same county, appeared, subscribed the Test, and took their seats in Congress.

On motion, *Ordered*, That Alexander McDonald (son of Allen McDonald) be permitted to his parole, under the same restrictions as those already enlarged.

On motion, *Ordered*, That Mr. John Hunt be appointed an Assistant Clerk to this Congress.

Resolved, That Mr. President, Mr. Nash, Mr. Harnett, Mr. Thomas

MONDAY, APRIL 15, 1776.

The Congress met according to adjournment.

Resolved, That the Minute men and Militia battalions and troops, under the command of Col. Caswell, remain in their present station until Saturday next, and afterwards have leave to march, under their respective officers, into their several counties, and then have leave to disband; the Congress relying on the gallantry and public spirit of those brave officers and soldiers, so far as to rest satisfied that they will not avail themselves of this permission, if there be any immediate danger of an attack on that part of the Colony where they are now stationed.

Pursuant to a resolve of the 11th instant, Mr. President presented the thanks of the Congress to Col. Richard Caswell, and the brave officers and soldiers under his command, for the very essential service by them rendered this Colony at the late battle of Moore's Creek.

The committee to whom was referred the consideration of a letter from the committee of Beaufort, in Carteret county, are of opinion that the situation of that town, and the Inlets adjacent, are such, that it appears absolutely necessary that a considerable military force should be stationed at or near the said town, to prevent our enemies from landing there, supplying themselves with provisions, and committing hostilities and depredations in that part of the Province; and that until further provision is made for the defence of that county, the company of 50 men now raised by the committee of said county be continued for that purpose, so long as the said committee shall judge it necessary.

The committee are also of opinion, that the turpentine now lying at Beaufort, belonging to William Gibbs, should be landed at his expense, and for his use, at some secure place where it may not fall into the hands of the enemy; all which is submitted to Congress.

1. That they receive into their possession all such arms as have been taken from the Tories, and keep them safely till they shall be demanded by persons hereafter to be appointed by this Congress for that purpose; and that they have power to give discharges upon such receipts to all persons intitled to them.

2. That they purchase all fire arms which are good and sufficient, and fit for immediate use; and also such as may be repaired, and put in such order as to be made useful. Provided, that no guns fit for immediate use may be purchased from any militia man, whereby he may be able to plead such circumstance in excuse for not attending his duty as a militia man when called upon.

4. That the arms so taken, when repaired, shall be valued by indifferent persons, and after deducting the expense of the repairs, the surplus shall be paid to those from whom such were purchased: and as to those which are fit for immediate use, the value thereof, upon appraisement made by indifferent persons, shall be paid to the proprietors.

The committee appointed to take into consideration the defenceless state of the sea coast of this Province, do report, and humbly submit to the consideration of the Congress, the following as their opinion, viz. That the sea coast from the Virginia line to Occacock Inlet, as also the coast from Occacock to Bogue Inlet, and from that Inlet to the South Carolina line, is totally defenceless, and all the sea banks covered with cattle, sheep and hogs, and the few inhabitants living on the banks are chiefly persons whose estates consist in live stock, and exposed to the ravages of the small armed vessels and tenders; and that if the armed vessels and tenders are prevented from getting supplies of fresh provisions from the sea coast, it will be impossible for the war to be of long continuance in this Province, as the seamen and soldiers will be afflicted with the scurvy and other diseases, arising from the constant use of salt provisions, and therefore be under the necessity of quitting the coast, and by that means save to the back inhabitants of this Province the very great trouble and heavy expense of frequently coming down to the assistance of their brethren on the sea board.

Your committee further submit to the consideration of the Congress the necessity there is of raising another regiment, and stationing six companies out of the same on the sea coast for its defence, in the following manner, viz. Two companies from the Virginia line to Occacock Inlet, two companies between Occacock Inlet and Bogue Inlet, and two companies between Bogue Inlet and the South Carolina line; and that it be recommended to the Continental Congress to take the said regiment into Continental pay, first fully assuring the Congress of the necessity of such a measure.

Ordered, The said report lie for consideration till to-morrow.

Ordered, That Mr. Hooper and Mr. Penn be added to the committee of Secrecy, War and Intelligence.

Mr. Spicer, Mr. Hunt and Mr. Tignal Jones have leave to absent themselves for a few days.

Ordered, That Mr. Rochester, Mr. Dickson, Mr. Lawrence Baker, Mr. William Williams, Mr. Thomas Harvey and Mr. Benajah Doty, be added to the committee of Claims and Military Accounts.

They are as much as possible to have regard to moral character, particularly sobriety. 3. They are not to enlist any imported servant, nor, without the leave of his master, any apprentice. 4. They are to be careful in enlisting such men for Serjeants and Corporals, whose ability, activity and diligence make them fit for that appointment; they are also to appoint a Fifer and Drummer. 5. "I have this day voluntarily enlisted myself as a soldier in the American Continental Army, and do bind myself to conform in all instances to such rules and regulations as are or shall be established for the government of the said army: as witness my hand, &c." 11. That they enlist no soldier under 5 feet 4 inches high, able bodied men, healthy, strong made, and well limbed, not deaf, or subject to fits, or ulcers on their legs, or ruptures. 12. That they pay to each soldier they shall enlist 40 s. bounty, and 3 l. advance; and that every recruit take the following oath: *I — — — do swear, that I will be faithful and true to the United Colonies; that I will serve the same, to the utmost of my power, in defence of the just rights of America, against all enemies whatsoever; that I will, to the utmost of my abilities, obey the lawful commands of my superior officers, agreeable to the Ordinances of the Congress, and the Articles of War to which I have subscribed; and lay down my arms peaceu-*

Your committee are of opinion that each Light Horse man employed in the late expedition against the insurgents in this Province, should be allowed 2s. 6d. for every day he served, and that for every horse (where the public found forage) the owner should be allowed 2s. and 2s. 6d. where forage was supplied by the owner. That to every Captain in such service should be allowed 10s. Lieutenants 7s. 6d. and to every cornet 5s. per day. That 2s. 6d. for every day's service should be allowed to every Light Horse man who shall hereafter enter into the regular service (exclusive of the horse) and to every captain the same pay as a Major of Foot, to every Lieutenant the same pay as a Captain of Foot, and to every Cornet the same pay as a Lieutenant of the Foot.

The House taking the same into consideration, concurred therewith.

WEDNESDAY, APRIL 24, 1776.

The Congress met according to adjournment.

Mr. Rotheas Latham, one of the members for the county of Hyde, appeared, subscribed the Test, and took his seat accordingly.

On motion, *Resolved*, The House resolve itself into a committee of the whole House, for taking under further consideration the report of the committee to consider the most practicable and expeditious method of supplying the Province with arms, ammunition, warlike stores and sulphur; and also the expediency of erecting works for making salt petre, gunpowder and purifying sulphur, &c.

The House resolved itself into a committee of the whole accordingly, John Campbell, Esq. in the Chair; and after some time spent, came to sundry resolutions. On motion, Mr. President resumed the Chair, and Mr. Chairman reported as follows, to wit:

Your committee beg leave to report, that it is their opinion that Mr. Eaton Haynes, Mr. John Geddy, Mr. David Jeffers, and Mr. Henry Mason be employed to proceed, at the expense of this Province, to Warwick and Petersburg, in the Province of Virginia, and there to consult with — Rubsamer, and observe the process by him made use of in manufacturing salt petre, and obtain from him instructions and information how the process may be most beneficially conducted in this Province; and after having themselves made the experiment successfully in the presence of the said Rubsamer, and having obtained a certificate from him of that fact, to return to this Province; and that they be empowered to promise, in behalf of this Colony, that they will make the said Rubsamer a handsome gratuity for the extraordinary trouble he may take to further the purposes of the said commissioners.

It is further the opinion of this committee, that buildings be erected, and all the materials, implements, and utensils, necessary for the manufacturing salt petre, be procured, and that a manufactory be established in the county of Halifax, which shall be under the superintendence, direction and management of the said commissioners; and that the said commissioners shall have power to draw upon the Treasury of this Province for a sum of money, not exceeding 600 l. to be applied to pay the expence of providing such works and materials as shall be necessary for the above purpose, and that they employ under them such labourers and assistants as may be necessary to conduct the process most expeditiously and beneficially; and that the said commissioners shall be allowed the sum of 1 s. for every pound of salt petre which they shall make and deliver within two years into the hands of the commissioners hereafter appointed to receive the same, for the benefit of the public; and that the said commissioners shall give bond, in the sum of 1200 l. to the President of this Congress, for the due and faithful discharge of the trust reposed in them. and for the due application of the said monies which may be paid them out of the Treasury.

It is further the opinion of this committee, that a powder mill be erected in the county of Halifax, and that Wylie Jones, Benjamin McCulloch and Josiah Sumner, Esqrs. be appointed to erect the same, and prepare all utensils, implements and materials, for the manufacturing gunpowder; and that they receive from the directors of the salt petre manufactory such quantities of salt petre, from time to time, as they shall have made, prepared and refined for use, and also shall use their best endeavors to procure sulphur wherever it may be found, and to purify such of it as may be crude and unfit for present use. And that the said Wylie Jones, Benjamin McCulloch and Josiah Sumner be empowered to draw upon the Colony Treasurers for a sum of money, not exceeding 500 l. to disburse the expence

of constructing such works, providing such articles as shall be necessary to carry on the said work; and that they give bond for the due application of the said monies, and the faithful discharge of the trust reposed in them, and that the said bond be to the President of this Congress, and his successors, in the penal sum of 1000 l. and that the said directors of the powder mill shall be allowed the sum of 1 s. for every pound of gunpowder manufactured by them, and delivered within two years into the hands of persons hereafter to be appointed by this Congress to receive the same, for the public use.

It is further the opinion of this committee, that a work be established in the Province of North Carolina for the purpose of making common salt, and that Waightstill Avery, William Thompson, Richard Blackledge and Robert Williams be commissioners to erect works necessary for that purpose, and to carry on the process, and obtain all possible information relative to the same; and that they be empowered to draw upon the Treasury for a sum, not exceeding 2000 l. to pay the expences of erecting such works, and providing all materials, implements and utensils proper to be made use of; and that such works be fixed in such part of the Sea coast where they will be best secured from the annoyance of the enemy, and tend to furnish the Colony with the greatest quantity of that necessary article; and that the said directors give bond, with sufficient security, for the faithful discharge of the trust reposed in them, and the due application of all such monies which may be advanced them; and that over and above their reasonable expences, be allowed the sum of 4 d. (for the space of two years from the last day of August next) for every bushel of salt manufactured by them, and delivered to such persons as shall be directed to receive the same, for the public use; and that the said commissioners, after fixing upon a proper place on the Sea coast for the manufacturing of common salt, do purchase the same of the proprietor or proprietors thereof, for and in behalf of the public of this Province, upon the most reasonable terms, and give a draft for the same on either of the Treasurers of this Province, who shall be allowed the same in the settlement of his accounts with the public; and that the conveyance for the same shall be taken in the name of the President and his successors of this Congress, for and in behalf of the public of this Province, and that said conveyance shall be taken in fee simple.

It is further the opinion of this committee, that John Devane, Richard Herring and James White, in the district of Wilmington; John Cowper, James Coor and James Glasgow, in the district of Newbern; Luke Sumner, William Hunter and Jacob Hunter, in the district of Edenton; Joseph John Williams, Christopher Dudley and James Ransom, in the district of Halifax; William Johnston, Thomas Burke and Ambrose Ramsey, in the district of Hillsborough; James McCoy, David Nisbit and William Alexander, in the district of Salisbury, be empowered immediately to direct the establishing of public manufactories in their respective districts, of good and sufficient muskets and bayonets, of the following description, to wit: Each firelock to be made of 3-4 of an inch bore, and of a good substance at the breach, the barrel to be 3 feet 8 inches in length, a good lock, the bayonet to be 18 inches in the blade, with a steel ramrod, the upper end of the upper loop to be trumpet mouthed; and that for that purpose they collect from the different parts of their respective districts all gunsmiths, and other mechanicks, who have been accustomed to make, or assist in

making muskets, or who may in their opinion be useful in carrying on such manufactory, and that they be together employed in the respective districts manufactory so established; and that they be furnished, at the expense of this Colony, with tools, implements and utensils, and materials for carrying on the said work; and that the said commissioners respectively shall contract with the mechanicks in such manner as they may think proper, provided that for each gun and bayonet compleat the public shall not pay a sum exceeding 5 l. and that the said commissioners in each district shall have liberty to draw upon the Treasury for a sum of money, not exceeding 1000 l. for each district, to be expended in erecting such manufactories, procuring tools, implements and materials, and paying the mechanicks employed for their respective services; and that the said commissioners shall give bond to the President and his successors, with sufficient security, for the faithful discharge of their trust, and that they will justly account for all sums of money which may be intrusted to them for the purposes aforesaid; and that the said commissioners shall deliver to such person or persons as shall be impowered by this Congress to receive the same, all such muskets and bayonets as shall be complete for use.

Your committee further report, that as to the contents of a letter from Henry Gifford to General Moore, referred to this committee, they are of opinion that Mr. Thomas Person, Mr. Martin Plifer and Mr. Ambrose Ramsay be impowered and directed immediately to repair to John Wilcox's furnace and iron works on Deep River, and to agree with the said John Wilcox, in behalf of this Province, on the lowest terms they can, for the hire of the said furnace and iron works for the space of two years, or to purchase and repair the iron works in Guilford county, for casting pieces of ordnance, shot, and other warlike implements, for the use of this Province, of such sizes and denominations as the commanding officer of the troops shall from time to time direct; and that said commissioners agree with some person or persons, and direct the said work, and collect from the different parts of the adjacent country persons skilled in putting the said furnace in proper plight, and working at the same, and likewise horses, waggons, carts, barrows, together with all conveniences for smelting of metal, and wood cutters, colliers, and all other workers necessary for carrying on the work of the said furnace, and employ them for the purpose aforesaid; and that the said commissioners procure, at the expence of this Colony, all such provisions, tools, furniture and materials, as shall be found necessary for completing the said purpose; and that for discharging the expence thereof, the said commissioners be impowered to draw on the Colony Treasurers, or either of them, for any sum, not exceeding 5000 l. and that they give bond to the President of this Congress, for and in the name of this Province, in the penal sum of 10,000 l. for the due application of, and accounting for the money they shall so draw for the purpose aforesaid, and the faithful discharge of the trust reposed in them.

And as by the above resolves several set of commissioners have been appointed to superintend to carry into execution the several purposes and manufactories mentioned therein, and as several commissioners therein mentioned may remove out of the Province, die, or decline; it is therefore *Resolved*, That where any of the said commissioners may remove himself out of this Province, die, or decline to act, in every such case, the survivor or survivors of such set of commissioners where such an incident may hap-

pen, shall have full power to nominate and appoint a person, whom they shall conceive a proper person, to fill up such deficiency, who shall enter into bond as is above directed.

The House taking the said report into consideration, amended the same, and concurred therewith.

That the unhappy families and connections of those whom we have in our power, be assured, that every indulgence which humanity and compassion can give, consistent with the duty which we owe to the inhabitants of these Colonies, engaged in a contention for the rights of America and of mankind, shall be extended to those whom we have in our power; but that much will depend upon the future good behaviour of those who still remain in the Province, as to the mode of treatment which our prisoners shall experience, and their being suffered to return to their respective habitations, families and friends, when peace is restored to us; and that this Declaration be translated into Erse.

Resolved, That the committee of Secrecy, War and Intelligence be empowered to remove all such persons (not exceeding the number of 40) with their families, as they shall deem capable of influencing the late insurgents to take arms against America, from their present neighbourhood into such places as they shall judge most safe and convenient; and that certain persons, who shall be hereafter appointed in every county whither such persons and families shall be removed, be required to take special care that such persons shall not be suffered to want any of the necessaries of life, until it shall be in their power to procure the same by their own industry and property; and all supplies which shall at any time be furnished by the several persons so required, shall be paid for by this Colony. Mr. Hawkins has leave of absence from the Congress.

The order of the day being read for taking into consideration certain resolutions proposed as a foundation for a temporary civil Constitution, *Ordered*, The same be deferred till to-morrow morning.

Pursuant to a former resolution, the following Declaration was laid before this Congress, and approved:

DECLARATION.

Impelled by a regard to our own safety, and the preservation of those rights and privileges which God and the Constitution have made unalienably ours, and which the power of Great Britain, with unremitting vengeance, injustice and cruelty, is labouring to subvert, we have been induced to measures which it is the object of this Declaration to explain to those who may be interested in them, or their consequences.

To other Provinces, at a distance from their own places of residence, without that circle where their personal and family influence may be exerted to the prejudice of the Continent, and of this Province in particular, we have deemed it absolutely necessary for the public safety to remove a body of men, whose residence fortune had cast in the very bowels of our country, and who, in common with ourselves, have shared the blessings which a mild and liberal provincial system of laws, a benighted climate, an increasing trade, that poured riches into the lap of our honest industry, the countenance and protection of their honest neighbours held forth to them with the most liberal hand; this misguided people, disregarding the duty which they owe to that country, under the just and equal laws of which they have enjoyed protection, procured ample means of subsistence for

themselves and their families, and possessed of a considerable property amongst us, were equally bound, by every tie divine and human, to defend and maintain the cause of liberty, which in common with ourselves, all virtuous men on this Continent, at the hazard of every thing dear to them, are labouring at this day to defend. Those men, confederating with our unnatural enemies, and taking advantage of their residence amongst us, and that confidence which such a relation necessarily created, have raised their hands against us, and endeavored to imbrue them in the best blood of our fellow citizens. God in his Providence hath hitherto defeated their wicked machinations, and after their having experienced a shameful defeat, hath put into our possession many of the principals of them, who from the wickedness of their own hearts, and from the seduction of others, meant to have consigned this once flourishing colony to the most abject slavery and oppression.

Those people, though subdued, still retain principles inimical to us; and are prompt, as soon as they shall be favoured by their situation, or the assistance of troops, expected every day to invade this colony, with a probability of succeeding, to attempt to carry their wishes into execution, and co-operating with a merciless administration, drench this Province in blood and slaughter.

These have been our motives for exercising a severity, which regard to the common safety, and that first principle of nature, self-preservation, prompted. Justice demanded it at our hands, and in the anguish of our hearts we lament the sad necessity which the frailties of our fellow beings have allotted to our share; still we wish the reformation of those who in this unhappy contest are severed from us, and from those endearing ties which nature and social connections have formed for them, and who still remain amongst us to lament the folly and wickedness of those whom we have removed from amongst them. To these we administer this consolation, that they may rest assured that no wanton acts of cruelty, no severity, shall be exercised to the prisoners; no restraints shall be imposed upon them, but what shall be necessary to prevent their using their liberty to the injury of the friends of America.

We have their security in contemplation not to make them miserable. In our power, their errors claim our pity, their situation disarms our resentment. We shall hail their reformation with increasing pleasure, and receive them to us with open arms. Then sincere contrition and repentance shall atone for their past conduct. Members of the same political body with ourselves, we feel the convulsion which such a severance occasions; and shall bless the day which shall restore them to us friends to liberty, to the cause of America, the cause of God and mankind.

We war not with the helpless females which they left behind them; we sympathize in their sorrow, and wish to pour the balm of pity into the wounds which a separation from husbands, fathers, and the dearest relations, have made. They are the rightful pensioners upon the charity and bounty of those who have ought to spare from their own necessities to the relief of their indigent fellow creatures; to such we recommend them.

May the humanity and compassion which mark the cause we are engaged in, influence them to such a conduct as may call forth our utmost tenderness to their friends whom we have in our power. Much depends upon the future demeanor of the friends of the insurgents who are left a-

mong us, as to the treatment our prisoners may experience. Let them consider these as hostages for their own good behaviour; and by their own merits make kind offices to their friends a tribute of duty as well as humanity from us, who have them in our power.

The Congress adjourned till to-morrow morning, nine o'clock.

TUESDAY, APRIL 30, 1776.

The Congress met according to adjournment.

The committee appointed to settle the salvage of such vessels as were lately taken, and what the captors may be entitled to, reported as follows, viz.

That it appears to your committee, that a certain schooner called the Polly, of which one Silas Henry is now master, was bound on a voyage from Edenton, in this Province, to the Island of Madeira, loaded with Indian corn, staves and heading, and that the said schooner had proceeded to the Swash, near Occacock Island, on her way to the said Island of Madeira; and that on Sunday the 14th of this instant (April) about four o'clock in the afternoon of the same day, an armed sloop, called the Lilly, commanded by a certain John Goodrich, a tender fitted out by Lord Dunmore for the purpose of taking all the vessels at Occacock Bar; that the said John Goodrich hailed the schooner Polly, and ordered the master to come on board the said tender, and bring his papers; that Silas Henry, the master, and James Buchanan, one half owner of the schooner Polly and her cargo, went on board the tender Lilly, and delivered the papers to Capt. John Goodrich, who received and examined the same, and who told Mr. James Buchanan that the schooner was a prize, and kept the papers; and that Lieutenant John Wright, master of the armed sloop Fincastle, came over Occacock bar the evening of the said 14th day of this instant (April) and about 8 o'clock the same evening a boat with armed men sent from the Fincastle boarded the schooner Polly, and plundered the said schooner of all the live stock, disarmed the men, and left a prize master and four armed men on board the schooner Polly, who remained there for the term of 58 or 59 hours; and that on the 17th of this instant (April) a number of armed men, in 5 whale boats, boarded the tender commanded by John Goodrich, took her, and retook the schooner Polly, and carried the tender and schooner up to Newbern. Your committee therefore humbly submit to the consideration of the Congress the following as their opinion: That the captors are intitled, by a resolve of the Continental Congress of the 25th of November last, to one third part of the schooner Polly and her cargo, in lieu of salvage; and that the said vessel and cargo, consisting of Indian corn, staves and heading, should be sold at public auction, first giving thirty days public notice; and that after the sale thereof, and all necessary charges deducted, the distribution thereof shall be made as followeth, viz. One third part to the captors, and the other two thirds to Mess. James Buchanan and Archibald Campbell, who appear to your committee to have owned the said schooner Polly and her cargo.

The House taking the said report into consideration, concurred therewith.

Resolved, That Thomas Sitgreaves be appointed to sell at public auction, for ready money, the schooner Polly and her cargo, first giving 30 days

notice in the Carolina Gazette; and that distribution of the money arising from the sale thereof (after deducting all necessary charges) be made in the following manner, viz. One third part thereof to the captors, in lieu of salvage; and the other two thirds to Mess. James Buchanan and Archibald Campbell, who appear to have owned the said schooner Polly and her cargo.

Resolved, That Joseph Hughs, late of Rowan county, have a safe conduct to come and reside in the county of Mecklenburg, with such of his family and property as he shall think proper to remove, he giving security to behave himself well, and not to give assistance or council, directly or indirectly, to the enemies of America.

Resolved, That Mr. George Miller, Mr. Currie and Mr. Campbell, be committed to examine the property of John Hamilton and Co. in a vesse called the William, and her cargo, ordered to be seized at Newbern, and make report thereon.

Ordered, That Mr. Samuel Ashe and Mr. Caswell be added to the committee to report the most practicable and expeditious method of procuring and purifying sulphur for the use of the powder mill directed to be erected in this Province, and also the method of supplying the same with lead, and the mode of purifying the same.

The committee for taking under consideration such petitions as may be exhibited by persons who shall appear objects of charity, reported that they had taken in consideration the petition of Robert Willis, viz.

It appears to your committee that the said Robert Willis is a Serjeant in Capt. Armstrong's company of the Continental Army in this Province; that in the late expedition to Ninety Six, in South Carolina, he took cold by the inclemency of the season, whereby he hath been reduced to a very weak and languishing state of health, and that the said Robert Willis is very poor and indigent. Your committee therefore recommend him as an object of public charity, and are of opinion that, during his present infirmity, he ought to be allowed from this Province for his support at the rate of 20 l. a year, to be paid quarterly, in lieu of his pay.

And as to the case of one William Wommock, referred to this committee, it appears to your committee that the said William Wommock was a Sergeant in the Orange militia in the late expedition against the Tories; that on his march he was unfortunately shot with a bullet through one of his feet, and thereby rendered unfit for that service; that it does not appear to your committee that he is at present in a state of poverty and want, nor does it appear to your committee whether his wound be likely to be cured or not, or what expences have been incurred to effect his cure. Your committee therefore recommend that proper persons be appointed to inspect the said William Wommock, and to make report to the Congress.

The House considering the same, concurred therewith.

Ordered, That Mr. Simpson and Mr. James Saunders be appointed to examine into the circumstances of the said William Wommock, and report to the next Congress accordingly.

Ordered, That Mr. Hooper, Mr. Burke and Mr. Dickson, have leave of absence; and that Mr. Harnett has leave of absence the day after to-morrow.

Resolved, That Mr. Burke, Mr. Samuel Ashe, Mr. Caswell, Mr. Hooper, Mr. Penn, Mr. Nash, Mr. Kinchen, Mr. Thomas Jones and Mr. Coor,

be a committee to form a temporary form of government until the end of the next Congress.

Resolved, That Capt. ——— Dennison be allowed 10 l. as a gratuity for his care, vigilance, and the hazard he run, in performing a voyage from Newbern to the French West Indies, and back again, to procure ammunition for this Province; that the Treasurers, or either of them, pay him the same, and be allowed in their accounts.

The committee to form an estimate of the expence for supporting the troops to be raised for one year, reported that the expence of one regiment for 12 months would amount to 50,000 l.

The committee for re-considering the petition of William Alston, in behalf of Solomon Alston's widow, reported to this House.

The House taking the same into consideration, *Resolved*, That John Henderson, who intermarried with the said Solomon Alston's widow, enter in bond, with sufficient security, to the President of this Congress (in behalf of said orphans) that he will not remove any part of the estate out of the Province, and faithfully account for the same.

To which the General returned the following answer, viz.

MR. PRESIDENT,

As I have no wish so ardent, no ambition so strong, as that of serving the noble cause to which I have devoted myself, how happy must it make me, when to the pleasing consciousness of having endeavored to do my duty, you so politely add the approbation of my country. It is an heart felt and honourable testimony that my efforts have not been wholly unsuccessful, and my felicity upon this occasion can only be increased by considering that I have this public opportunity of expressing the obligations I feel to be due to those officers and men of every corps under my command, whose ready acceptance, and spirited execution of the orders issued, have obtained me the distinguishing honors of this day. Permit me, Sir, through you, to assure the honorable Convention, that I have the most grateful sense of their favour, and that I conceive the best return I can make, is with zeal and activity to pursue the dictates of my duty; in which resolution I cannot but persevere, as the good of my country is the end I aim at, and its applause the consequence and reward of promoting it. Isaac Vanbibber and Company's, and a commission charged by Mr. Stanly to them for sales of the said goods; and the allowance of 20 per cent. by the Congress was intended to be made to the adventurer, and of course ought to go to the credit of Vanbibber and Co. which when so applied, and a proper state of the accounts between Mr. Stanly and Mess. Vanbibber and Co. is adverted to, it will be found that a balance of 45 l. 14 s. 7 d. is due from Mr. Stanly to Mess. Whereas it appears to this Congress that the conduct of Felix Kenan, Sheriff of Duplin county, hath been inimical to the liberties of America, and thereby rendered himself truly unworthy to execute any longer the trust and confidence reposed in him by his appointment as Sheriff; and whereas the said Felix hath received considerable sums of public money, and hath not accounted for the same, *Resolved*, That the said Felix Kenan be, and hereby is suspended from the office of Sheriff of the said county of Duplin. *Resolved further*, That the said Felix Kenan do within one month after the passing hereof, return an exact account, on oath, of all such public monies as he shall have collected from the inhabitants of the said county, and pay the same into the hands of the Public Treasurer of the Southern district of this Province.

allowed and paid for the same, with all necessary expences, by the Treasurers, or either of them, when passed by the executive power of government.

Whereas it appears, by the report of the committee of Accounts, that there is at this time in the hands of Matthew Lock, Esq. the sum of 2986 l. 13 s. 9 d. halfpenny, belonging to the public; it is therefore *Resolved*, That the said Matthew Lock do pay unto such of the soldiers who enlisted with Col. Alexander Martin in the second regiment, and who actually served the full time of their enlistment, or at least six months thereof, and now discharged, the sum of 40 s. each as a bounty, the same never having been paid them; and that Mr. Lock also pay off all arrears to those soldiers, and who are now in the counties of Rowan, Surry, Guilford and Anson; and that the soldiers now in actual service with Col. Resolved, That the Council of Safety have full power and authority to nominate and appoint commissioners at each of the ports of Currituck, Roanoke, Bath, Beaufort and Brunswick, for the purpose of taking bonds and granting certificates to masters of vessels about to depart the said ports, in order that the rules and regulations prescribed by the Continental and this Congress may be fully observed and carried into execution.

Whereas a number of claims against this Province, for services done and performed against the Highlanders and Regulators, in consequence of their late insurrection, remain unsettled; *Resolved*, That the Council of Safety be empowered to adjust, settle, and allow the same, and all other matters relating to the expences of the army heretofore had or incurred.

The House proceeded to make choice of one, and the districts of twelve proper persons, to compose the Council of Safety of this Province, when the following were agreed upon, viz. The committee appointed to prepare and bring in a plan for the more conveniently paying the militia who have or may serve in this Colony, and for adjudging and paying all expences incident to the militia when in actual service, report that your committee are of opinion that one waggon master should be appointed by the field officers of every battalion, when entering on actual service, subject to be removed or rejected by the Brigadier General. That the Commissaries should every morning make a return to the waggon master of the provisions, which the waggon master having examined and compared, ought to return, signed and certified to the commanding officer. That the waggon master should attend, as his special duty, to the arrangement of the waggons, taking care that every morning no more begin the march than one for every ton weight of provisions, except where there may be half a ton or upwards over and above what will make a ton for every waggon but one, in which case the one waggon should be kept in service until so much is consumed as to reduce it below half a ton; and in all cases where the quantity over a ton for each waggon is less than half a ton, the overplus ought to be distributed into the other waggons as equally as may be. That every morning all the empty waggons be discharged, each waggon having first obtained a certificate from the waggon master, setting forth the number of days it had been in service, and the place where discharged, and the distance to return. That for every twenty miles of such return distance, each waggon be allowed 20 s. for every day's pay. That every waggon master be allowed the pay and rations of a Major.

Your committee are further of opinion, that one Paymaster should be appointed for every militia brigade, and allowed a commission of two and a half per cent. on all monies he shall pay away. That once in every month (or at the end of an expedition, if the same shall not continue a month) the commanding officer of each battalion shall cause to be made out a pay roll of his battalion, setting forth the number of days each officer and soldier has been in actual service under his command, each company to be in a separate list, and proved by the oath of the Captain, or next commanding officer; which pay roll the said commanding officer shall cause to be delivered to the Paymaster of his brigade, signed by such commanding officer; and the Paymaster shall pay to the Captain of every company the pay which shall appear due to such company by the pay roll, and every officer the pay which shall appear due to him. And every waggoner should be entitled to receive from such Paymaster all the pay which shall appear due to him by the Waggon Master's certificate.

The House taking the same into consideration, concurred therewith.

The Congress adjourned till Monday morning, ten o'clock.
